7.7 million tonnes of aggregates sold (2013: 6.1 million tonnes)

1.5 million tonnes of asphalt sold (2013: 1.4 million tonnes)

0.8 million cubic metres of ready-mixed concrete sold (2013: 0.6 million cubic metres)

Highlights

- Steadily improving market conditions throughout 2014
- Financial results strongly ahead of 2013
- Underlying EBITDA margin up 1.7 ppt to 14.3%
- Strong organic growth from core business
- Nearly £50 million invested in acquisitions and on capital projects
- Further improvement in safety performance
- Positive industry outlook

Peter Tom, Executive Chairman, commented:

"We are pleased to report another year of significant progress, with results strongly ahead of 2013. These were driven by steadily improving market conditions, healthy contributions from acquisitions, the benefits of continuing capital investment and solid organic growth in the underlying business.

"As we enter our fifth year since the creation of Breedon Aggregates, the Group looks very different to the business we acquired in 2010. Sales revenue has nearly doubled, EBITDA has risen almost threefold, the balance sheet is strong and we have a stable, experienced management team in place.

"The economic outlook is the most favourable for our industry since the end of the recession. Construction output and demand for our products are expected to increase over the next three years and infrastructure in particular is expected to grow strongly in 2015-18 on the back of recently-announced public spending plans. We continue to see many opportunities to grow and improve our business and we are confident that we will make further progress in 2015."

Note to Editors

Breedon Aggregates is the leading independent aggregates business in the UK after the four global majors. It operates 53 quarries, 27 asphalt plants, 60 ready-mixed concrete plants and three concrete block plants in England and Scotland and employs around 1,220 people. The Group has strong asset backing, with over 500 million tonnes of mineral reserves and resources in the UK. Breedon Aggregates' strategy is to grow through consolidation of the UK heavyside building materials sector.

Chairman and Chief Executive Review

Introduction

We are pleased to report another year of significant progress, with results strongly ahead of 2013. These were driven by steadily improving market conditions, healthy contributions from acquisitions, the benefits of continuing capital investment and solid organic growth in the underlying business. Both England and Scotland reported improved performances.

As we enter our fifth year since the creation of Breedon Aggregates, the Group looks very different to the business we acquired in 2010. Sales revenue has nearly doubled, EBITDA has risen almost threefold, the balance sheet is strong and we have a stable, experienced management team in place.

The economic and market environment

We moved from 'self-help' to 'market-help' as conditions improved throughout the year in line with the recovery in the wider UK economy. However, we continue to adhere to the principles of self-help which served us well in the recessionary years, focusing on outstanding service, disciplined control of costs and judicious investment in our business.

Macroeconomic data for the UK in 2014 continued to be positive, with GDP growing by 2.6 per cent and unemployment and inflation falling. Construction output grew by 5.3 per cent driven primarily by housing, which increased by 18 per cent – although new orders have recently started to decline, suggesting that growth is likely to be nearer 10 per cent in 2015. Industrial and commercial building also performed well, although infrastructure declined slightly.

The Mineral Products Association (MPA) estimates that product volumes grew by 11.0 per cent for aggregates, 8.6 percent for asphalt and 1.7 per cent for ready-mixed concrete in 2014. As usual, there were significant regional differences, with the Midlands and South of England showing the highest growth.

Our trading performance

Good progress was made on all fronts: sales revenue increased by 20.1 per cent to \pounds 269.7 million, underlying EBITDA by 36.2 per cent to \pounds 38.5 million and profit before tax by 94.0 per cent to \pounds 21.4 million. The Group underlying EBITDA margin improved from 12.6 per cent to 14.3 per cent, with both England and Scotland ahead of the prior year, and it is now approaching our medium-term target of 15 per cent.

The year began and finished strongly, with favourable weather conditions allowing higher than usual activity levels in January and December. In England, the busiest day of the year for asphalt deliveries was 15 December – unheard of in our experience!

Market conditions in England were strong, with good demand from housing, commercial, industrial and agricultural customers. Scotland was more subdued, undoubtedly affected by the independence vote in September, and there seems to be less visibility on government spending plans than there is south of the border.

Major contracts supplied

We supplied a number of major contracts in the year, although, as we have said previously, most of our business is with smaller customers with whom we have longstanding relationships developed over many years. Our priority has been and always will be to meet their requirements before considering larger one-off contracts, which tend to be supplied by larger companies at lower prices.

Key contracts supplied during the year included:

- Dualling of the A453: 65,000 tonnes of aggregates and 13,000 cubic metres of concrete
- Nottingham Tram: 51,000 tonnes of asphalt
- Birmingham Airport: 13,000 tonnes of asphalt
- Invergordon Harbour: 133,000 tonnes of aggregates
- Stornoway Harbour: 30,000 tonnes of aggregates and 3,500 tonnes of asphalt
- Dundee Waterfront: 10,000 tonnes of asphalt

Our health and safety record

We are very proud of the fact that our accident rates have fallen significantly since 2010, as this has been a major area of focus for us following a number of serious accidents in prior years. Caring for the wellbeing of our employees has always been one of Breedon's most cherished values.

Lost Time Injury Frequency Rate (LTIFR) is the industry's key measure of performance. It records those accidents which result in an employee having to take time off work, divided by the number of average hours worked. Breedon had only six lost time injuries in 2014, fortunately none of them particularly serious, and our LTIFR accordingly declined by 13 per cent over the previous year. Our key objective is to reduce the LTIFR every year, with a hard-target annual reduction of 30 per cent.

Our safety culture is based on strong leadership, backed by a strict reporting regime in which any dangerous occurrence is rigorously investigated and preventative measures put in place. The rigour of our approach is reflected in the fact that Breedon's LTIFR is now close to the MPA industry average, after having been one of the worst performers in 2010. We plan to improve further in 2015.

Investment in our business

We continued to invest significantly in the business through a combination of acquisitions, greenfield development and organic capital expenditure. In 2014 we spent cash of £33.4 million on acquisitions, £3.5 million on an investment and £11.9 million on other capital projects. This expenditure represents an investment in the future and will generate additional revenues, reduce costs and improve productivity in the years ahead.

Two sizeable acquisitions were completed in the year: Huntsmans Quarries in June, which extended our presence in the Gloucestershire and Worcestershire markets; and Barr Quarries at the end of October, which gives us a strong new market position in south-west Scotland. These both represent tremendous additions to Breedon's portfolio.

Other important investments included:

- Opening of West Deeping quarry in south Lincolnshire
- Opening of Ardchronie quarry in the Highlands
- Purchase of Clearwell concrete plant in Gloucestershire
- Construction of a new concrete plant at Cannock in Staffordshire
- Purchase of two asphalt plants from Hope Construction Materials in Suffolk and Essex
- Investment in a joint venture, Breedon Bowen, at its quarry in mid-Wales

We also continued our capital investment programme with upgrades at Craigenlow, Norton Bottoms and Astley Moss quarries and the acquisition of significant new plant for our Scottish contract surfacing business.

We anticipate continuing investment in 2015 to increase capacity, improve efficiency and further develop our business. Most notably, we have plans to replace, improve or upgrade a number of asphalt and concrete plants in 2015 and we would expect to continue with our acquisition programme.

Our people

The success we have achieved over the last four years is the result of a committed team effort and we thank every one of our employees for their contribution to Breedon's progress. More than half our employees have joined us since the formation of Breedon Aggregates in 2010, reflecting the many acquisitions we have made, but they have all quickly embraced the enthusiasm and values which we believe differentiate Breedon Aggregates from other larger companies in our sector. We look forward to continuing to work together for many years to come.

The outlook for Breedon

The economic outlook is the most favourable for our industry since the end of the recession. Construction output and demand for our products are expected to increase over the next three years and infrastructure in particular is expected to grow strongly in 2015 - 18 on the back of recently-announced public spending plans. The MPA is forecasting further increases in product volumes in 2015.

Uncertainties regarding the general election in May are likely to be temporary, as all major political parties seem to recognise that infrastructure investment and capital spending have an important part to play in delivering continued economic recovery in the UK.

Of course, there remain concerns about the size of the deficit and the future direction of the Eurozone. However, the lower oil price will continue to have a positive effect on costs and should help to accelerate the recovery of margins in our industry, which still remain below pre-recession levels and in some cases below the cost of capital.

We continue to see many opportunities to grow and improve our business and we are confident that we will make further progress in 2015.

Financial Review

Revenue & underlying operating profit

During the year we delivered strong organic growth, particularly in England, and completed two sizeable acquisitions: firstly Huntsman's Quarries Limited ("Huntsmans"), a long-established aggregates company based in the North Cotswolds and secondly Barr Quarries Limited ("Barr Quarries"), the market-leader in aggregates in south-west Scotland.

For the 12 months as a whole, Group aggregates volumes were up 25.2 per cent at 7.7 million tonnes, asphalt volumes were up 12.3 per cent at 1.5 million tonnes and ready-mixed concrete volumes were up 22.9 per cent at 0.8 million cubic metres. Excluding the volume from acquisitions, aggregates, asphalt and ready-mixed concrete volumes were up 19.6 per cent, 11.4 per cent and 16.9 per cent respectively.

Revenue for the year at £269.7 million was 20.1 per cent ahead of 2013 (2013: £224.5 million). Excluding revenue from acquisitions, revenue would have been £260.3 million (2013: £224.5 million).

Underlying earnings before our share of associate and joint venture, interest, tax, depreciation and amortisation ("EBITDA") were £38.5 million and were 36.2 per cent ahead of 2013 (2013: £28.3 million). Of this, EBITDA of £1.5 million was generated by acquisitions. Underlying results are stated before acquisition related expenses, redundancy and reorganisation costs, property items, amortisation of acquisition intangibles and related tax items.

EBITDA margins across the business in England and Scotland were improved yearon-year. Overall the EBITDA margin for the Group increased to 14.3 per cent from 12.6 per cent in 2013. Underlying Group operating profit was £23.1 million and was 58.3 per cent ahead of 2013 (2013: £14.6 million).

Associate and joint venture

Share of profit from associate and joint venture (net of tax) included BEAR Scotland Limited and a contribution from our 50 per cent investment in Breedon Bowen ("Bowen"), the owner and operator of Tan-y-Foel Quarry near Welshpool.

Interest

Net finance costs in the year totalled £3.3 million (2013: £3.6 million) and included interest on the Group's bank facilities, amortisation of bank arrangement fees and interest on finance leases. The lower costs in 2014 reflect the level of borrowings and finance leases and the lower cost of the new bank facility put in place in July 2014 (see 'Bank facilities').

Тах

An underlying tax charge of £4.3 million (2013: £2.7 million) was recorded in the year, resulting in an underlying effective tax rate for the full year of 20.5 per cent, influenced by the effects of the beneficial impact of the reducing UK corporation tax rate, income from associates already being taxed and of costs in Jersey for which no tax relief can be obtained.

The Group's tax strategy is to comply with all relevant regulations whilst managing the total tax burden and seeking to maintain a stable effective tax rate. The Group seeks to achieve this through operating a simple Group structure.

The Group endeavours to structure its affairs in a tax-efficient manner where there is commercial benefit in doing so, with the aim of supporting investment in the business and its capital expenditure programmes. This takes into account utilisation of capital allowances and any historic losses in the business which can be offset against current year profits. The Group seeks to ensure that its actions do not adversely impact its reputation as a responsible tax payer in the following ways:

- It takes appropriate tax advice and support from reputable professional firms and the parameters which govern its approach are set by the Board, which regularly reviews the Group's tax strategy.
- It is open and transparent in its dealings with HM Revenue & Customs and deals with any queries in a timely and open manner and, in particular, responds to any tax queries quickly and on a full disclosure basis.
- Any tax affairs are administered in a lawful and responsible manner.
- All of its tax liabilities arise in the subsidiary companies in the UK and in terms of the UK corporation tax position all years up to 2012 are agreed.

Non-underlying items

Non-underlying items in the year were a net pre-tax income of £0.3 million (2013: cost of £1.4 million) and included a gain on the sale of property of £2.1 million and acquisition-related costs of £1.3 million. In addition, non-underlying items include a tax credit of £0.1 million (2013: £1.1 million) in respect of the agreement of prior year items.

Earnings per share

Basic earnings per share ("EPS") for the year were 1.68 pence (2013: 1.08 pence), struck after the non-underlying items mentioned above. Underlying basic EPS for the year totalled 1.64 pence (2013: 1.12 pence).

Dividends

Subject to availability of distributable reserves, dividends will be paid to shareholders when the Directors believe it is appropriate and prudent to do so. However, for now the main focus of the Group will be on delivering capital growth for shareholders.

Statement of financial position

Net assets at 31 December 2014 were £167.2 million (2013: £149.0 million).

Assets acquired through acquisition in the year have been valued at fair value as at the date of acquisition by the Directors, guided by third party valuations where appropriate.

The net assets are underpinned by the mineral, land and building assets of the Group, which at the end of December 2014 had a book value of $\pounds136.7$ million (2013: $\pounds122.1$ million).

Cash flow

Cash generated from operating activities was £40.6 million (2013: £24.9 million).

In addition to delivering short-term earnings growth, we are positioning the Group for the longer term and, as part of that, we are investing in the business, adding acquisitions where these make sense both strategically and financially and investing further in plant and equipment.

During 2014 the Group spent £33.4 million on acquisitions (2013: £54.0 million), and recorded a cash spend on capital expenditure projects of £11.9 million (2013: £12.5 million). The acquisitions included Huntsmans and Barr Quarries. In addition, the Group invested £3.5 million in a new joint venture, Breedon Bowen.

Proceeds from the sale of property, plant and equipment totalled £6.0 million in 2014 (2013 £4.6 million) and included the sale of the 60-acre Doseley site near Telford in Shropshire for £11.0 million. The land is on the site of a former concrete products plant and has outline planning consent for 460 homes. At 31 December 2014 we had received proceeds of £2.8 million in respect of Doseley and the remaining proceeds will be received over the next three years.

Net debt

Net debt at 31 December 2014 was £66.3million (2013: £54.4 million).

Key movements in net debt include EBITDA of £38.5 million (2013: £28.3 million); purchase of property, plant and equipment of £16.1 million (2013: £13.2 million) which includes £4.2 million (2013: £0.7 million) financed by way of new finance leases; and £40.1 million (2013: £ 54.0 million) spent on acquisitions and investments which includes £3.2 million (2013: £nil) of loans and finance leases acquired with subsidiaries.

The ratio of net debt to EBITDA reduced to 1.7x at 31 December 2014, down from 1.9x at the end of 2013.

Bank facilities

In July we signed a new four-year £100 million committed revolving credit facility, which includes an additional £50 million accordion option. The agreement refinanced the Group's existing facility, which was due to mature in September 2015. The new facility is at a lower cost with greater flexibility to support our bolt-on acquisition strategy.

The Group's facility is subject to a floating interest rate based on LIBOR plus margin. At 31 December 2014, the total undrawn facility available to the Group amounted to \pounds 29.0 million. The Group's new bank facility is subject to covenants which are tested half-yearly. These covenants are: Group leverage and Group interest cover. At 31 December 2014, the Group comfortably complied with the two covenants. Based on our current estimates, we expect to comply with all our covenants for the foreseeable future.

The Group has in place an interest rate hedge which mitigates the risk of interest rate rises on the Group's bank loans.

Notes to the financial statements

1 Basis of preparation

Breedon Aggregates Limited is a company domiciled in Jersey.

This financial information (see note 9) consolidates the results of the Company and its subsidiary undertakings and equity accounts for the Group's interest in its associate and joint venture (collectively the "Group").

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the EU ("Adopted IFRS's") and have been prepared under the historical cost convention except where the measurement of balances at fair value is required.

New IFRS standards and interpretations adopted during 2014

In 2014, the following standards and amendments have been endorsed by the EU, became effective and therefore were adopted by the Group:

- IFRS 10 Consolidated Financial Statements
- IFRS 11 Joint Arrangements
- IFRS 12 Disclosures of Interests in Other Entities
- IAS 28 Investments in Associates and Joint Ventures
- Amendments to IAS 36 Impairments of Assets
- Amendments to IFRS 2 Share Based Payments
- Amendments to IFRS 3 Business Combinations

The annual improvement project to IFRS's provides a vehicle for making non-urgent but necessary amendments to IFRS's. Amendments to a number of standards have been adopted.

The adoption of the above standards, amendments and interpretations has not had a material impact on the Group's financial statements, other than certain additional disclosures.

New IFRS standards and interpretations not adopted

The IASB and IFRIC have issued additional standards and amendments which are effective for periods starting after the date of these financial statements. The following standards and amendments have not yet been adopted by the Group:

Effective date 1 February 2015

- Amendments to IFRS 2 Share Based Payments
- Amendments to IFRS 3 Business Combinations
- Amendments to IFRS 8 Operating Segments
- Amendments to IFRS 13 Fair Value Measurement
- Amendments to IAS 16 Property, Plant and Equipment
- Amendments to IAS 38 Intangible Assets
- Amendments to IAS 24 Related Party Disclosures

The Group does not anticipate that the adoption of the above standards and amendments will have a material effect on its financial statements on initial adoption.

2 Segmental analysis

Segmental information is presented in respect of the Group's business segments in line with IFRS 8 - Operating Segments, which requires segmental information to be presented on the same basis as it is viewed internally. The Group's Board of Directors, considered as the Group's "Chief Operating Decision Maker", views the business on a geographical basis. As such, two operating segments (England and Scotland) have been identified as reportable segments. There are no other operating segments. The majority of revenues are earned from the sale of aggregates, related products and services.
