Subject : 01/2022/0523 Consolidation application for extension and restoration of Graig Quarry, Graig Road, Denbigh - Archaeological Condition

Dear Sir or Madam

Thank you for the consultation on this development proposal.

We have been involved at the pre-application stage in the development of this project and provided advice on the necessary archaeological surveys (Desk Based Assessment and Geophysics) to be completed in advance.

We are in agreement with the findings of the Andrew Josephs Assoc. Heritage Statement (Oct 2021) in section 6.2 and a condition for an archaeological scheme of investigation comprising a strip/map/excavate methodology for the new 5ha extraction is recommended in accordance with TAN 24 (May 2017) and Planning Policy Wales (Feb 2021). The archaeological fieldwork would need to be completed before any extraction can commence, but can be done in stages to allow early winning of minerals from areas which are deemed clear of archaeology.

Cadw will comment on the indirect impacts to the Vale of Clwyd Registered Historic Landscape.

The condition in this case would be:

Suggested planning condition to facilitate a scheme of archaeological investigation using a strip/map/excavate methodology as a condition of consent

*No development shall take place within the application area until the applicant, or their agents or successors in title, has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation, which has been submitted by the applicant and approved in writing by the Local Planning Authority.*

*The archaeological programme of work will be undertaken and completed in accordance with the relevant Standards and Guidance laid down by the Chartered Institute for Archaeologists. A copy of the resulting report should be submitted to the Local Planning Authority and the Development Control Archaeologist, (Clwyd-Powys Archaeological Trust, The Offices, Coed y Dinas, Welshpool, SY21 8RP Email: mark.walters@cpat.org.uk Tel: 01938 553670). After approval by the Local Planning Authority, a copy of the report and resulting archive should also be sent to the Historic Environment Record Officer, Clwyd-Powys Archaeological Trust for inclusion in the regional Historic Environment Record and the National Monuments Record, RCAHMW*

Reason: To secure preservation by record of all archaeological remains which will be impacted by the development

The applicant will need to engage an archaeological contractor to complete this work and a written scheme of investigation (WSI) will need to be approved by me before the archaeological works commence.

Kind regards

Mark Walters
