

The extraction of minerals from quarries is a core part of the daily activities carried out by the Breedon Group (**we/us**). We quarry minerals through a process called blasting under which we use explosives to break rock. Blasting creates both noise and vibrations which can be heard and felt at sites nearby or neighbouring the quarry. In keeping with our commitment as responsible quarry operators and as a good neighbour, we regularly seek to find ways to engage with our neighbours to keep them updated as to when a blast may be taking place (**Blasting Communications**).

Blasting Communications can take many forms and this privacy notice describes how we collect and use information as part of providing a Blasting Communication to the extent such information is personal data in accordance with the EU Regulation 2016/679 General Data Protection Regulation (**GDPR**). This document also satisfies our obligations under Article 30 of the GDPR. It applies to all occupiers of properties near to or neighbouring a site of the Breedon Group (**you/Neighbour**).
